A range of attachments to keep winter under control...

## Technical Information

### Citymaster 1250

4 cylinder diesel engine 35.4kw  
2,189 cm<sup>2</sup>. Tank volume 60L  
2-stage hydrostatic drive up to  
25km/h, differential lock.  
Automotive drive control via 2 foot  
pedals. Tyres 195 R14C

Length	1.35m
Width (lawn profile)	1.35m
Height (cabin)	1.985m
Track (width)	99cm
Wheelbase	1.4m
Permissible Axle Load	1.5kg
Laden weight	2.5kg

### Citymaster 2000

Dirt hopper volume	1.99m <sup>3</sup>
Length (with brush)	4.5m
Width	1.30m
Height	1.9m
Max laden weight	4.5kg
in winter	4.9kg
Wheelbase	1.9m
Track width	1m
Max sweeping width	2.5m
Clean water tank	330L

## Attachments available on both

### Front

Front sweeper - 1.30m, 1.45m 1.6m  
sprung flap snow plough - 1.5m 1.7m  
combined sprung flap snow plough  
1.5m  
snow blower - 1.2m

### Rear

Cylindrical gritter - 1m  
Cylindrical gritter and spreader >6m  
Self loading spreader - 1m  
Silo spreader - >6m  
Transport capacity - 400L

## Citymaster 1250

when equipped for winter, our award winning Citymaster 1250 becomes an all-purpose giant. with a transport volume of up to 400L road grit or 500L brine, a snow plough attachment for the front or snow blow attachment for the rear and a rotary spreader for paths - every winter eventuality can be covered and converted into quickly and efficiently. There is no need to purchase many machines when the Citymaster 1250 can easily cover all eventualities

## Citymaster 2000

The Citymaster 2000 was engineered for all year deployment right from the start. fitted with comprehensive standard equipment such as a heater with multi stage fan and heatable windscreen, a differential lock on the rear axle providing necessary winter traction, and the chance to retro fit gritters, spreaders, snow ploughs, snow brushes; you can and fully equip your Citymaster 2000 with everything you need ready for winter.

## Major Winter Service

Front sweeper and various sprung flap clearing blades (working width of >170cm) enable pavements and bike paths to be quickly cleared of snow

## Showing True Grit

As each gritting job involves different techniques, Hako can supply 3 different systems for the Citymaster machines; a cylindrical gritter (1m), a cylindrical spreader and gritter (up to 6m) and a silo spreader (up to 6m) The Citymaster can take up to 400L of gritting material, making it ideal for use on foot & cycle paths, public car parks and pedestrian areas
